§24.278 Tax credit for certain small domestic producers.

(a) *General.* In the case of a person who produces not more than 250,000 gallons of wine during the calendar year, there shall be allowed as a credit against any tax imposed by 26 U.S.C. (other than chapters 2, 21 and 22), an amount computed in accordance with paragraph (d) of this section, on the first 100,000 gallons of wine (other than champagne and other sparkling wine) removed during such year for consumption or sale. Such credit applies only to wine which has been produced at a qualified bonded wine premises in the United States.

(b) *Controlled groups.* For purposes of this section and §24.279, the term "person" includes a controlled group of corporations, as defined in 26 U.S.C. 1563(a), except that the phrase "more than 50 percent" shall be substituted for the phrase "at least 80 percent" wherever it appears. Also, the rules for a "controlled group of corporations" apply in a similar fashion to groups which include partnerships and/or sole proprietorships. Production and removals of all members of a controlled group are treated as if they were the production and removals of a single taxpayer for the purpose of determining what credit may be used by a person.

(c) *Time for determining and allowing credit.* The credit allowable by paragraph (a) of this section shall be determined at the same time as the tax is determined under 26 U.S.C. 5041(a), and shall be allowable at the time any tax described in paragraph (a) of this section is payable. The credit allowable by this section is treated as if it constituted a reduction in the rate of such tax.

(d) *Computation of credit.* The credit which may be taken on the first 100,000 gallons of wine (other than champagne and other sparkling wine) removed for consumption or sale by an eligible person during a calendar year shall be computed as follows:

(1) For persons who produce 150,000 gallons or less of wine during the calendar year, the credit is \$0.90 per gallon for wine eligible for such credit at the time it is removed for consumption or sale;

(2) For persons who produce more than 150,000 gallons but not more than 250,000 gallons during the calendar year, the credit shall be reduced 1 percent (\$0.009) for every 1,000 gallons produced in excess of 150,000 gallons. For example, the credit which would be taken by a person who produced 159,500 gallons of wine would be reduced by 9 percent, or \$0.081, for a net credit against the tax of \$0.819 per gallon for the first 100,000 gallons of wine removed for consumption or sale.

A person who is eligible for the credit shall show the amount of wine tax before credit on the Excise Tax Return, ATF F 5000.24, and enter the quantity of wine subject to credit and the applicable credit rate as the explanation for an adjusting entry in Schedule B of the return for each tax period.

(e) *Definition of production.* For the purpose of determining if a person's production is within the 250,000 gallon limitation, in addition to wine produced by fermentation, production includes any increases in the volume of such wine due to the winery operations of amelioration, wine spirits addition, sweetening, and the production of formula wine. Production of champagne and other sparkling wines is not excluded for purposes of determining whether total production of a winery exceeds 250,000 gallons. Production includes all wine produced at qualified bonded wine premises within the United States and wine produced outside the United States by such person.

(f) *Report.* Where a person does not use the credit authorized by this section to directly reduce the rate of Federal excise tax on wine, that person shall report on ATF F 5000.24 where such credit will be, or has been, applied.

(g) *Denial of deduction.* Any deduction under 26 U.S.C. chapters 1-6, with respect to any tax against which the credit is allowed under paragraph (a) of this section shall only be for the amount of such tax as reduced by such credit.
